

## City News ...In Brief

(From Thursday's Daily)

### From Silica Mines.

C. C. Miller, operating the silica mines near Dewey, is in the city on a business visit.

### To the Coast.

Walter Miller, the Jerome merchant, was an arrival in the city yesterday, and will leave this morning for an extended trip to the coast on pleasure.

### Delivered Cattle.

J. E. Peterson, the Mesa feeder of cattle, yesterday delivered a car of heaves to the O. K. meat market of this city, making his regular ten day trip.

### Goes to Range.

Charles Burke of Williams arrived in the city Tuesday and left yesterday for Oak Creek, where he has ranch and range interests to look after.

### Crown King Arrivals.

Among the arrivals in the city yesterday from Crown King were the following: George Donner, Mr. and Mrs. George Olney, M. E. Staples and Jennie Walters.

### From the Desert.

A. P. Ballard, the company carpenter of the Castle Hot Springs company, reached the city yesterday and will remain indefinitely, having concluded his labors there.

### Returns to Coast.

J. E. McCoy left yesterday for Los Angeles, his home, after attending to mining interests in this section, mainly the Bannie Mining company, in which he is a heavy stockholder.

### To San Francisco.

E. S. Clark, accompanied by his son, Neil, left yesterday for San Francisco, on a professional trip. He has matters of a legal nature to attend to before the Circuit Court in that city.

### Former Official Here.

J. H. Page, ex-Secretary of Arizona, after a brief visit in the city, left yesterday for the Grand Canyon, where he will spend several days looking at the big wonder. He resides at Phoenix.

### From the Basin.

Alex Radcliff was an arrival yesterday from his mining claims in Copper Basin, where he reports considerable activity and particularly since the Commercial Mining company entered that field to resume development.

### Railroad Official Returns.

Wallace Fairbank, treasurer of the S. F. P. & P. railroad, has returned from an extended visit with relatives and friends in Chicago, on his annual vacation. Mrs. Fairbank remained with relatives, and will return later.

### To Be Wed.

A marriage license has been issued by Probate Judge Hicks to Henry Strohm and Bettie Nichol, both of whom are residents of Bouse. Mr. Strohm formerly resided in this city and is a mine owner near that railroad center.

### Mining Visitor.

Wiley Woodruff, popularly known in the mining field, and formerly a deputy sheriff at Poland, is in the city for a few days on business. He has the contract for sinking the main shaft of the New Cumberland and reports the work as nearing completion. He returns to his camp tomorrow.

### Up to Date.

J. T. Nelson, the Jerome Junction merchant, reached the city yesterday, and surprised his many friends by propelling an auto from his home. He says it was only a little practice run and when he gets acquainted with the caprices of gasoline power, will enroll his name on the list of the Prescott Auto Club. He came in over the old road by way of the Point of Rocks, and returned via the Williamson Valley route and the new cutoff. Business Trip.

A. W. Edwards left yesterday for Castle Hot Springs, where he has business interests to attend to. The resort is expected to close for the season this month, and upon the return of Mr. Edwards a definite day will be set for this purpose.

### To the Springs.

Pete Strahan, who recently arrived from Phoenix, and who was stricken ill while en route to the Arkansas Hot Springs to receive medical treatment for acute rheumatism, will leave again in a few days, destined for that city, going via the Santa Fe this time.

### Gets What He Wanted.

Special Officer Bartlett of the Santa Fe brought to the city yesterday from Ash Fork, Ventura Barrell, a Mexican, who was sentenced to serve thirty days for trespassing on the line of the railroad, and who also endeavored to beat a board bill in that place. He will have a chance to satisfy his appetite free of charge in this city.

Mine Operator Here.

Lester Jackson, who is developing the War Eagle and Gladiator mines, in the Bradshaws, is in the city on a business trip pertaining to that property. He reports the showing as good and development continues under the most favorable conditions, there being no break whatever in the big ore bodies cut into some time ago. Mr. Jackson is devoting his personal attention to the work going on.

(From Friday's Daily)

### To Visit Friends.

Mr. and Mrs. Hugo Richards left yesterday for Chicago, where they expect to visit friends for the next two months.

### Recovers from Illness.

The many friends of F. L. Wright will be pleased to learn that he is again on the street, recovering from a severe attack of the measles.

### Business Trip East.

Mayor Morris Goldwater left yesterday for an extended trip to the east, on a goods purchasing expedition for his Prescott and Phoenix houses.

### Officers Return Home.

Thomas Thompson, deputy sheriff at Mayer, after a few days in the city on official duties, returned to his home yesterday, accompanied by his wife.

### Goes to Capital City.

W. L. Clark of the United Verde Copper company, passed through the city yesterday for a brief visit to Phoenix on business, and will return this morning.

### Sad Mission.

Mrs. E. A. Rogers left yesterday for Los Angeles, where her sister, Mrs. Pinney, recently passed away, and where the funeral will take place immediately after her arrival.

### To Install Machinery.

Joe Geimer, chief engineer of the Crystal Ice company and the Arizona Brewing company, left yesterday to start up the new Wingfield ice and cold storage plant at Camp Verde.

### Locates at Phoenix.

After disposing of his mercantile interests in the city, Wednesday, Pete Strahan has decided to locate and go into business in the Capital City. With his wife he will leave for that place today.

### From Floor Diggings.

Joe Ryan, with the Speck Mining company, on Lynx Creek, was an arrival in the city yesterday for a brief visit. He was a heavy loser of personal effects, at the fire that occurred there Wednesday.

### Teacher in City.

Miss Katie Coughran, recognized as one of the most capable of teachers in the county, and recently in charge of the Fair Oaks school, reached the city yesterday, and is en route to her home in Skull Valley.

### To the Daisy.

J. J. Fisher, general manager of the United Verde Extension Mining company, at Jerome, left for the Little Daisy yesterday to make an inspection of the development going on at various parts of that big mine.

### Mayer People in City.

Gilbert Ferguson, superintendent of the Logos Mining company, near Mayer, is in the city for a brief business trip. George Bunch and T. F. Averill, also of the same section,

who have been in the city on court matters, returned yesterday.

### Takes Mud Baths.

Milton Tregalles, the efficient salesman in the house of M. Goldwater & Bro., left yesterday for the Agua Caliente springs, in Yuma county, to try the efficacy of the hot mud baths for an attack of rheumatism. He anticipates a two weeks' trip.

### Returns Home.

After a visit of several months with her sister, Mrs. John McGinn, of this city, Miss Annie Hayes returned to her home in Chicago, yesterday. She has made many friends in the city and regret is expressed over her leaving. She was accompanied to Ash Fork by Mrs. Julia Murphy, her friend.

### Prominent in Mining.

Dr. Sara Thacker, probably the only feminine operator in mines in the Southwest, and possessing a practical knowledge of the industry, was an arrival yesterday from Los Angeles. She is identified with the Logos properties, near Mayer.

### School Official Here.

A. B. Curtis, secretary of the Walker school district, was in the city yesterday for a brief visit on business. He states that Miss Mae Stukeley, has closed school at that place for the term, and her services were highly commended as an instructor.

### Fine Ore Displayed.

R. Robertson, who is developing mining property near Kirkland, was in the city yesterday, on a business trip. He brings samples from his mines from recent development, that indicates a very high grade product. He feels very much elated over the showing made.

(From Saturday's Daily)

### To Parker.

Mrs. Henry F. Ashurst left yesterday for Parker, where she will be the guest of friends for several days.

### Returns to Mine.

Mr. and Mrs. C. E. McKinley returned to their home at the McKinley mining camp, in the vicinity of Iron Springs, yesterday, after a few days in the city as the guest of friends.

### Visiting the Trade.

Chas. T. Askew, the sales manager for the Zellerbach Paper company, of Los Angeles, the largest paper house on the Pacific Coast, was in the city yesterday, visiting the many Prescott patrons of the house. He leaves this morning to visit the trade on the main line on his way home.

### Federal Official in City.

F. W. Tuckermans, examining agent of the pension service, is again in the city on business of that department.

### Mayer Visitors.

Mr. and Mrs. M. M. Walker of Mayer are in the city for a few days, visiting friends and transacting business.

### To the Canyon.

Mr. and Mrs. John Mason Ross left yesterday for the Grand Canyon where they will spend several days in recreation.

### Guest of Friends.

Miss Mary V. Miller of Tucson, is in the city for an extended visit, and is at the home of Mr. and Mrs. Ernest Emanuel as a guest.

### Back from Mines.

W. I. Johnson reached the city yesterday from Cataract Canyon, in the northern part of Mohave county, where he has mining interests.

### Mine Foreman Arrives.

H. T. Dailey, foreman of the McKinley Mining and Development company, near Iron Springs, arrived in the city yesterday for a brief business trip.

### En Route to Mines.

J. Q. Stephens passed through the city last night from Los Angeles, en route to his mining claims in the vicinity of the Hillside mines, in Eureka district.

### Disposed of Cattle.

George H. Young and George B. Reid of the Verde Valley, yesterday disposed of all their cattle ranging in that section to J. H. Wingfield, Jr., the price paid being \$4,500.

### Conclude Visit.

Robert Erwin and daughter, who have been visiting the city for several days, returned to their home at Glead yesterday. Mr. Erwin is a wood contractor at that point.

### Officer Returns.

H. L. Ahlers, the efficient special officer of the Santa Fe railroad, with headquarters at Seligman, returned to his home yesterday, after a few days of official duties in this section.

### Mining Man Leaves.

F. L. Dwight, general manager of the Grand Mountain Mining company, operating near McCabe, left yesterday for a business trip to Los Angeles pertaining to his interests.

### Tucson Engineer.

William B. Alexander, a well known mining engineer of Tucson, passed through the city yesterday afternoon, en route to Kingman, where he goes to attend to some mining matters.

### Mining Claim Sold.

A deed was recorded yesterday from George Donner to W. E. Toohy for the Elder mining claim in the Peck district, near Crown King, the consideration named being nominal.

### Sells Placer Mine.

Vernon Slinkard yesterday disposed of his Copper Nugget mining claim to L. I. Fletcher of Mayer, together with the improvements on the ground. The consideration named in the deed was \$350.

### Recovers and Returns.

C. T. Joslin, who has been seriously ill in Los Angeles for the past few weeks, returned to his home in the city last night, fully recovered. He was afflicted with poison oak troubles.

### Back from Trip.

George D. Morris, an attaché of the S. F. P. & P., has returned to the city after a general trip to the south and west along the railroad, going as far as Parker, on the A. & C. Residence Sold.

Mrs. Sarah M. Church yesterday sold her residence property on South Mount Vernon avenue to D. C. Kurtz, the deal being effected by Harry M. Thomas, assistant cashier of the Commercial Trust company.

### Goes to Oak Creek.

Mark Murphy, the popular mining man, left yesterday for the Oak Creek region and the Mogollon Mountains, to enjoy an outing for two months. He was well equipped with fishing material and will reach Oak Creek the day that the open season for trout begins.

### Takes Up Land.

Yesterday, before U. S. Commissioner Moore, Mrs. Irene McGill of Congress, a sister-in-law of D. J. Sullivan of that place, made application under the desert land act for entry of 320 acres of land in the Big Chino valley, and located near the J. W. Sullivan interests.

## ARIZONA STONE FINDS READY MARKET

Los Angeles Corporation  
Is Formed to Develop  
Quarries  
Valuable Tracts Ac-  
quired in Vicinity Of  
Flagstaff

LOS ANGELES, Cal., May 6.—The Pacific Consolidated Stone company, a Los Angeles corporation, which recently acquired the grand sandstone quarries at Flagstaff, Arizona, is preparing to develop the property on an unprecedented scale. H. L. Thornton, who for twenty years was identified with the Bedford, Ind., quarries, and who has furnished the material for many of the finest buildings, both public and private, on the continent, is a member of the Pacific Consolidated and has been made general manager of its properties. Under his guidance it is believed Arizona sandstone will be made to take its proper place among the building materials used not only in the Southwest, but in the whole country.

A vigorous selling campaign will be inaugurated in order that architects and builders may be made familiar with the stone and a market for the product of the quarries created. New machinery will be installed at the quarries and a finishing mill is to be erected in Los Angeles at a cost of \$250,000. This mill will be equipped with the latest in stone working machinery and will give employment to about 100 skilled men.

The quarries at Flagstaff have been worked in a more or less desultory fashion for the past twenty years and many building throughout California and Arizona and New Mexico attest the beauty and general excellence of the product thereof as building material.

Among 250 to 300 business blocks, Federal, state and municipal buildings, clubs, churches, residences, etc., in which Arizona sandstone has been used, are:

Residence of Bishop Warren, Louis Maek block, Brown Palace Hotel, Denver Athletic Club, Club building, Arapahoe; Ernest & Cramer building, D. K. Lee residence, W. R. McFarland residence, Hotel Metropole, Frank Dillingham residence, Dr. Lenen residence in Denver; Tempe Normal school in Tempe, Ariz.; public library in Stockton, Cal.; U. S. government Indian schools in Truxton Canyon, Ariz.; Commercial Club building and four school buildings in Albuquerque, N. M.; Methodist church, Hotel Adams, Goodrich building, Carnegie library of Phoenix; a Normal school in Arizona; Oregonian building in Portland, Ore.; postoffice in Sacramento; City hall, hall, County court house, Bradbury building, residence of Alfred Solano, Harper & Reynolds building, Willard Shamon block, postoffice, O. T. Johnson building, Hotel Lankershim, Federal building and postoffice, Westminster hotel, Henne block, Lankershim building, Germain building, San Francisco building, I. L. Hellman building, E. N. McDonald block, William Garland residence, Homer Laughlin building and Santa Fe depot in Los Angeles, Cal.; bank in Tucson, Ariz.; High school, Pasadena school building, and Santa Fe depot at Pasadena, Cal.; Northern Arizona Normal school, court house, Coconino county, Arizona; public school, Methodist church, Weatherford hotel, Babutt block and Santa Fe depot in Flagstaff, Arizona; Santa Fe depot in Ash Fork, Arizona; Santa Fe depot in Williams, Arizona; California street Methodist church, Spreckles residence, Pacific Union Club, California Club, Church of the Advent, Sixteenth street fire engine house, Sullivan residence, Mission High school, Mills building, Bohemian Club, Howard building and City hall in San Francisco, California; Santa Fe depot in Holbrook, Arizona; Santa Fe hospital in Topeka, Kansas; Orange county court house, First National Bank building in Santa Ana, California; Santa Fe depot in Winslow, Arizona, and the Winters' residence in Kansas City, Missouri.

In selecting a building stone it is essential that it possesses strength, durability and a pleasing color; that can be worked easily; that can be finished in large sizes if desired, and that can be obtained without delaping

the construction of the building. Arizona sandstone resists a strain of about 5,800 pounds per square inch, which will stand the weight of the stone in a column over a mile high without crushing. It was used in the Oregonian building, Portland, Oregon. The building is nine stories high, with a corner sixty-three feet higher than the main building. Arizona stone was used for the first three stories of both building and tower in 1891, and is in perfect condition today.

Owing to its very fine texture and to its being void of sharp grit, Arizona sandstone has very few equal for ease in working. It has no superior for fine carving, admitting of a very heavy relief and presenting sharp edges. It is without doubt the best sandstone in the United States for figure carving. In the Spreckels mansion, San Francisco, built of Arizona sandstone, in a balustrade which shows on both sides, several panels were set which were afterwards carved in scroll work, leaving after carving, less than one-eighth of the original panel. These stones were set before carving, and not one was broken in working.

While color is a matter of taste alone, the fact that the brown stones have always been the most popular of all building stones, presupposes a reason. A dark stone gives a building a gloomy or somber appearance. The lighter grays and buffs do not give the appearance of massiveness and stability suitable to a stone structure. The brown stones alone give the desired harmonious effect. The brown stones also work very well in combination with brick, giving both contrast and harmony, which is very desirable. Arizona sandstone is a very bright and peculiar shade of brown. It is warm in color but has none of that reddish brick tint so common to many brown stones. It does not fade or dull by exposure and presents a better appearance in large quantities in completed buildings, owing to its absolute uniformity of color than in smaller samples.

The inability to withstand the severe cold of winter in many building stones is owing to the large per cent of water absorbed. The average absorption of sandstones is from 3 to 13 per cent of the bulk of the stone. Arizona sandstone absorbs 3.76-100 per cent of moisture which places it among the very best of sandstones. Ohio sandstones (with a national reputation) absorb 6.35-100 per cent of moisture, nearly twice as much.

The new million dollar Federal building in Los Angeles is built of Arizona sandstone and is pronounced by those who know to be one of the most beautiful government buildings in the country outside of the city of Washington.

The development of the Flagstaff quarries on the scale proposed by the Pacific Consolidated Stone company means much to Arizona, as not only will it bring money to the Territory, but will serve to advertise it as well.

### BOUNDUP NOTICE.

The Perkins and King roundups will start on the 16th of May. Will meet at the Perkins Ranch on the 15th and work up the Verde river and Chino Valley.

## Lard Has Been in Existence a Long Time--So Has Indigestion

Human nature is hard to solve. People who are most particular about adapting the weight of their wearing apparel to the season and its conditions, who never think of going out in a storm without an umbrella and rubbers, who would not sit in a draft, will day after day eat lard-soaked food and not realize for an instant that it is clogging their whole inner machinery. Lard is produced from hog fat, sometimes pure, always indigestible.

Cottolene is the best frying and shortening medium in the world. It is made from refined cottonseed oil. From Cottonfield to Kitchen—human hands never touch the oil from which Cottolene is made. Everything in Cottolene is digestible and conducive to health.

### COTTOLENE is Guaranteed

Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

### Never Sold in Bulk

Cottolene is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

Made only by THE N. K. FAIRBANK COMPANY
